

Reporting with the WinGPC ReportDesigner (P/N 899-0030)

Description

This software training course is designed for present users of the WinGPC ReportDesigner and for future clients planning to implement this versatile tool. It offers lectures and a practical session given by an experienced polymer chemist with extensive knowledge about chromatography, WinGPC and the ReportDesigner.

After successful participation each attendee should be able to create layouts (1 or more pages)

- with the company's choice of content, layout and style
- with meaningful result tables, figures and on-line calculated quality criteria
- with the optimum output format to support the company's workflow requirements.
