

Ensure WinGPC Unity traceability and compliance (P/N 899-0033)

Description

This software training course is designed for WinGPC Unity Compliance Pack administrators, IT professionals responsible for CSV (computer system validation), and users responsible for validation. It offers lectures and practical PC sessions given by an experienced polymer chemist with extensive knowledge about chromatography and WinGPC Unity.

Participants should be familiar with the basic WinGPC features and functions. Previous attendance of the WinGPC Unity software training course (P/N 899-0029) is recommended, but not required.

After successful participation each attendee should be able

- to administrate the WinGPC Unity Compliance Pack
- to identify and apply settings reflecting the company policy
- to control audit trails
- to set user level rights
- to perform meaningful IQ/OQ for GPC/SEC systems

Program

09.15 Welcome and General Information

09.30 Introduction to WinGPC Unity with Compliance Pack

WinGPC Unity philosophy, Compliance Pack philosophy
Guidelines for Macromolecular Chromatography Data Systems (MSDS)
Overview national and international standards for GPC/SEC, electronic records, and others

10.00 Installation and setup of the Compliance Pack

Installation requirements, infrastructure requirements
User authentication (workstation/network options)
Overview WinGPC Compliance Pack

10.30 Coffee break

11.00 Compliance Pack configuration

The Compliance Pack Administration Tool
User levels, user level rights, individual user rights
Recommended configuration and settings
Limited access to WinGPC Unity

11.30 Practical Session part I

Hands-on training with 2 people per workstation:

12.15 Lunch

13.30 Efficient use of WinGPC Unity with Compliance Pack

User level dependent data acquisition and evaluation
WinGPC projects with/without sample audit trail, option: reason for change
Assign electronic signatures
System audit trail, sample audit trail, instrument audit trail
Traceability and compliance

14.15 Practical Session part II

Hands-on training with 2 people per workstation:

Ensure WinGPC Unity traceability and compliance (P/N 899-0033)

15.15 Coffee break

15.45 Comprehensive documentation

Use of the WinGPC Unity/PSS instruments Validation Binder
PSS IQ/OQ tools, holistic test with the PSS EasyValid GPC/SEC validation kit
Additional documentation available with the WinGPC ReportDesigner^{plus}

16.15 Round table discussion

Strategies for successful and meaningful validation of GPC/SEC systems

ca. 17.00 Course review and end of training course

Registration and Organization

Complete the PSS registration form and send/fax the form to:

PSS Polymer Standards Service GmbH, POB 3368, D-55023 Mainz

Fax: +49-6131-96239-11

Tel.: +49-6131-96239-0

Email: info@polymer.de

Participation Fee: EUR 490.- plus VAT @ 19%

The participation fee includes lecture and practical session, course materials, coffee break catering, lunch and dinner on Thursday evening.

Cancellation
